

Saturday, 16 March 2019
18:00 – 19:30

Location: Green Area, Room 4
Chair: A. M. Kamat, Houston (US)

Common problems in bladder cancer: Evidence based debates

medac Satellite Symposium at the 34th Annual EAU Congress, Barcelona

18:00 - 18:10	Introduction and case presentations	A.M. Kamat, <i>Houston (US)</i>
18:10 - 18:30	Case-based debate 1 Should all patients undergoing 1st time TURB receive immediate post-TURB chemotherapy instillation?	P. Black, <i>Vancouver (CA)</i> H. Mostafid, <i>Guildford (GB)</i>
18:30 - 18:50	Case-based debate 2 High risk bladder cancer (TaHG with CIS): Is BCG induction sufficient?	J. Bjerggaard Jensen, <i>Aarhus (DK)</i> M. Burger, <i>Regensburg (DE)</i>
18:50 - 19:10	Case-based debate 3 A patient with high risk bladder cancer (T1HG on TURBT, repeat TUR negative) who cannot have radical cystectomy: Is BCG the best option?	H. Mostafid, <i>Guildford (GB)</i> M. Burger, <i>Regensburg (DE)</i>
19:10 - 19:20	Common problems	
	Common Problem 1 Recurrent low grade bladder tumor recurs after BCG/Chemotherapy - now what?	P. Black, <i>Vancouver (CA)</i>
	Common Problem 2 How to prevent and manage BCG side effects	J. Bjerggaard Jensen, <i>Aarhus (DK)</i>
19:20 - 19:30	Discussion and closing remarks	A.M. Kamat, <i>Houston (US)</i>
